MIT FUTUREBUILDERS

MIT FutureBuilders is a immersive program for high school students that empowers the next generation to lead in AI, innovation, and entrepreneurship. Taught directly by MIT-affiliated instructors and mentors.

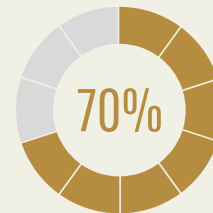

The World is Changing

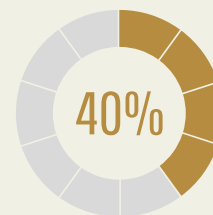

between 60%-70% of employees' time today could be automated with GenAI and other tech
McKinsey & Company

more than 60% of occupations could be partially automated by AI
Goldman Sachs

of companies will adopt at least one type of AI technology by 2030
McKinsey Global Institute

of global employment is at risk to AI
IMF

Preparing for tomorrow, starts today

- AI is transforming the world as we know it, reshaping every industry and redefining our future.
- In this era of rapid change, exploring new frontiers in tech is more important than ever.
- MIT FutureBuilders is designed to transform students from tech consumers into AI builders, ready to create the innovations of tomorrow.

Solve real-world problems, by harnessing tech & AI

The course takes students from exploring AI to designing an app that tackles real-world challenges.

Guided by experienced MIT-affiliated instructors and, mentors, students gain personalized feedback and insights while forging meaningful connections with peers worldwide.

Students engage in a dynamic learning experience filled with interactive sessions, activities, and opportunities for creativity and exploration.

The program includes:

- MIT RAISE Certificate of Completion
- Report card for students
- Access to MIT apps and tech

AI and Innovation

Immersive, hands-on coding sessions and interactive workshops focused on AI and machine learning

Entrepre- neurship

Team-based learning experience focused on developing and structuring a company based on an app

Innovation Demo

Final pitch competition featuring all the team's startup ideas, with a focus on innovation, teamwork and communication skills

Stand out from the crowd!

1

Elevate your college application journey

2

Learn in a college-like risk-free environment

3

Engage directly with MIT leaders in the field of AI and innovation

*No technical prerequisites are required; only a desire to learn, explore, create, and innovate.
